Education

International Islamic University, Islamabad

Bachelor in Computer Science

Pakistan

08/2020 – 06/2024

Work Experience

JFreaks Software Solutions

Full-Stack Developer

Bahria Town, Lahore

07/2024 – Present

- Currently serving as a Junior Software Engineer, contributing to the development and enhancement of product-based applications like WebscraperAI and ScreenshotAPI. Key responsibilities include:
- Designing and implementing elegant, responsive UI components using React, Tailwind CSS, and TypeScript.
- Building core scraping and automation features using Playwright and Puppeteer for high-accuracy data extraction and screenshot capture.
- Developing robust website backends using Node.js and Express.js for efficient server-side logic and API integration.
- Managing client-side data fetching and caching using SWR, React Query, and MobX for efficient state management.
- Integrating secure and scalable payment gateways such as Stripe and Creem for subscription-based access and billing.
- Working with PostgreSQL to handle and query large-scale datasets efficiently.
- Collaborating with the team in Agile sprints, actively participating in planning, stand-ups, and code reviews to maintain quality and consistency across the codebase.

Vespert Tech

Mobile App Developer

Master City, Gujranwala

05/2023 – 09/2023

- Focused on developing mobile applications using React Native, contributing to multiple projects.
- Created applications such as a Travel App and an Income and Loan App, enhancing the product offerings.
- Utilized technologies such as React Native, Firebase, Stylesheets, and React Navigations to deliver functional solutions.
- Engaged in the complete application development lifecycle from concept to deployment.

Projects

ScreenshotAPI.net :

- Developed the complete front-end with a responsive and user-friendly interface.
- Built the backend using Node.js.
- Integrated Stripe and Creem for secure payment processing.
- Implemented screenshot and data scraping features using Playwright and Puppeteer for high-accuracy results.
- Implemented storage services like AWS, Wasabi, and Google Cloud for efficient and scalable data storage.

WebscraperAI:

- Designed and developed a clean, responsive front-end.
- Utilized advanced JavaScript features like Intersection Observer to enhance user experience.

Mobile App for School Management:

- Built a cross-platform mobile app using React Native (Android and iOS).
- Implemented all core features related to school management.
- Integrated Firebase for real-time data storage and backend connectivity.

Mobile App for Expense Tracking :

- Developed a cross-platform mobile app using React Native.
- Implemented features such as expense entry, transaction categorization, and monthly summary views.
- Used Firebase for real-time data storage and user authentication.

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks: Node.js, Express.js, React.js, Next.js, React Native

Databases: MongoDB, MySQL, PostgreSQL, Prisma, Sequelize, Firebase

Tools: Git, Postman, Redis

Other: REST APIs, JWT Auth, Tailwind CSS, Stripe, Creem, Puppeteer, Playwright
